

I am a truck driver and listen to K-Love in as many cities as I can as I do my job. I need K-love to keep my mind centered on the things of God and not on the crazy drivers on the road. It inspires and lifts me up. Without having an alternative to the other radio stations for Christians and many who do not know Jesus as their Lord and Savior, they would not have a choice if frequencys or services were limited.

Each and every person has so many negative things going on in their lives at every turn. One thing K-Love promises and offers, is positive, uplifting, life changing encouragement every second it comes over the air waves, and I need this.

Please do not limit my K-love.
